+ FULL-SERVICE PROJECT DELIVERY

You don't need to juggle multiple companies. Lightility handles everything from early planning to final commissioning and support.

+ CLEAR FINANCIAL STRATEGY

We incorporate incentives, tax benefits, and real utility data into each proposal. You'll receive clear cash flow models, projected returns, and energy savings analysis.

+ NATIONWIDE CAPACITY WITH LOCAL PRESENCE

Our installer network spans multiple states, allowing for consistent pricing and project management. We deliver national coordination with local attention.

+ TECHNICAL AWARENESS AND AGILITY

We stay informed on policy, equipment updates, and industry trends. As changes occur, we adjust project recommendations to reflect new information.

+ DATA AND REPORTING

We provide access to system monitoring, reporting dashboards, and diagnostics to help you understand system output and take corrective actions when needed.
